# Introduction

Good morning, I am Sayak Ghosh from Kolkata, West Bengal. I have completed my BTECH in Electronics and Communication Engineering from MCKV Institute of Engineering, Kolkata. I have completed my intermediate from St. Mary's Orphanage & day School and my plus two levels from St. Joseph's College. I was trained in Java Full Stack development where I learned front-end technologies like HTML, CSS, Bootstrap, JavaScript, jQuery and back-end technologies like Core Java, MySQL, Spring Boot, Microservices. And I have made the project on the same technologies. Apart from technical, I'm a hardworking person and a good learner. I'm comfortable in working in a team environment. My hobbies include gaming, watching new movies and learning new things. My short-term goal is to get Full Time Employee in cognizant and my long-term goal is to achieve renowned position in this company. That's a brief introduction about me. Thank you.
